Summer School in Euro Mediterranean Strategies VI Edition

The VI edition of the “*Summer School in Euro Mediterranean Strategies*” will take place from 23th to 26th of September 2015 in Maratea (PZ) on the topic of **Sustainable Thinking/ Sustainable Tourism**.

The Summer School is promoted by **IASEM - Institute of High Euro Mediterranean Studies and FEEM – Eni Enrico Mattei Foundation**, motivated by the common will to re-launch the debate on the Mediterranean integration process.

The School will be attended by students from different Mediterranean Countries, who will discuss and debate on these topics with renowned international experts. The course is structured in classes on the Mediterranean’s geo-political and economic context, and workshops on sustainable tourism, as a tool supporting local development and dialogue.

The Summer School programme includes lectures, workshops and debates with the specific target of providing the best theoretical tools to approach the complexity of the issue proposed, analysing all economic, political and cultural interconnections.

Within the network **MCH – Mediterranean Common House**, created to promote a Mediterranean integration process from the bottom, the course aims to deepen the role of tourism as a cultural vehicle and exchange of experiences, strengthening a culture of integration and mutual knowledge.
